JUNE 2016 CONSTRUCTION PRODUCTS ANNOUNCEMENTS

It's no secret that these June 2016 construction products announcements might have just the solution you need. Secure workers' data, give vets some jobs, learn about concrete products giving back, get a new way to dim the lights, check out a turnkey solar power solution, see the toughest door in the world, and get an app for measuring architectural drawings.

Concept by US POWERstation Simplifies Solar

Concept BY US released a new, turn-key, solar energy storage system became available in the U.S. that provides steady, reliable, copious electricity to off-grid-ders, both when the sun is shining and at night.

The **POWERSTATION 247** (<http://www.powerstation247.com>) is a complete, patent-pending, UL certified and fully integrated scalable solar energy storage system with built-in battery storage. The system comes in three sizes, 5 kW, 10 kW, or 15 kW; all have the same battery storage capacity of 17.28 kWh. Its free standing cabinet is easy to install and easy to use. The system integrates up to 3 hybrid inverters, solar MPP-trackers, charge controller and lithium-iron batteries, all necessary field wiring terminals and disconnect switches. It's completely turnkey, includes all software and can be installed on and off grid.
